Location: Andhra Pradesh, India | **LinkedIn:** linkedin.com/in/vankayalapati-dhanush/

OBJECTIVE

Aspiring **Java Full-Stack Developer** with strong foundations in **Java, SQL/MariaDB, REST APIs, Spring Boot**, and frontend development using **HTML, CSS, and Angular.** Passionate about building scalable backend systems, developing responsive interfaces, and contributing to real-time applications. Seeking a challenging role to apply technical skills while continuing to learn and grow.

EDUCATION

Audisankara College of Engineering and Technology, Andhra Pradesh   2024
B.Tech in Artificial Intelligence
CGPA: 7.87

NRI Junior College, Tirupati   2020
Class 12(PCM)
Percentage: 69%

ZP High School, Srikalahasti   2018
Class 10
Percentage: 87%

TECHNICAL SKILLS

Programming & Backend	**Frontend**
Java	HTML5
SQL	CSS3
MariaDB	Angular
RESTful APIs	
Spring	

Developer Tools
VS Code
Eclipse
HeidiSQL (MariaDB)
Git & GitHub
STS (Spring Tool Suite)

Core Concepts
Object-Oriented Programming, JAVA (OOP)
API Development
SQL

INTERNSHIP EXPERIENCE
Megan Soft Pvt. Ltd., Chennai | Full-time   Nov 2025 – Present

Java Full-Stack Intern Working on understanding real-time project requirements and contributing to **backend and frontend module development**. Developing mini-modules using **Java, Spring Boot, MariaDB, and basic Node.js for API logic**. Learning and implementing **REST API development, CRUD operations, and database schema design.** Gaining hands-on experience with **Angular for UI components** and service integration. Preparing to work on feature implementation and integration for an ongoing enterprise project.

Ernst & Young (EY) Global Consulting Services | Hybrid   Feb 2024 – Apr 2024
Full Stack Web Development Intern

Completed a full-stack internship involving the development of web pages using **HTML, CSS, and JavaScript, along with backend storage using MongoDB**. Improved skills in version control through **Git and GitHub** and worked on responsive design, **API integration, and small-scale deployment** practices.

PROJECTS

AI-Powered Chatbot
Developed a simple **AI chatbot** using **HTML, CSS, and JavaScript**. Implemented pattern-based keyword matching to simulate conversational behavior. Designed a clean and responsive interface while demonstrating basic **AI logic** without using **NLP libraries**.

Todo List Web Application
Created a functional task management application using **HTML, CSS, and JavaScript.** Added features such as task editing, deletion, completion status, search functionality, and priority organization. Implemented local storage to maintain tasks across sessions and focused on building an intuitive user interface.

CERTIFICATIONS
Frontend Development — OneRoadmap (2025)
Completed training in building responsive user interfaces and gained practical experience developing static and interactive web pages.

AI For India 2.0 — HCL GUVI (2023)
Gained foundational understanding of Python and machine learning concepts through government-supported AI learning modules.

Full Stack Web Development — EY (2024)
Learned core concepts of full-stack development, including frontend design, backend logic, Git workflow, and deployment basics.
